MOBILE AIS

Technical Specification

Mobile AIS is a battery powered portable dual channel AIS receiver. It transmits the AIS-data wirelessly to up to 10 clients simultaneously (i.e. tablets, smartphones, laptops/PCs, WIFI enabled plotters). The Li-Ion battery pack allows up to 20 hours of operation. You can either recharge it directly with the cigarette lighter charger included in the package or any USB port. The 9000 mAh battery pack offers an integrated flashlight and a small compass for emergency navigation.

AIS Receiver	Dual channel, AIS 1 + AIS 2
WiFi	Up to 10 clients
Battery Pack	9000 mAh Li-Ion – up to 20 hours of operation
Accessories	<ul style="list-style-type: none">● Flashlight + compass on battery pack● Cigarette lighter charger● USB cable
